We use the existing Aumo boards. We will provide them in a material thickness of 3cm.

Board #1 Aumo - 1000 x 1000 mm

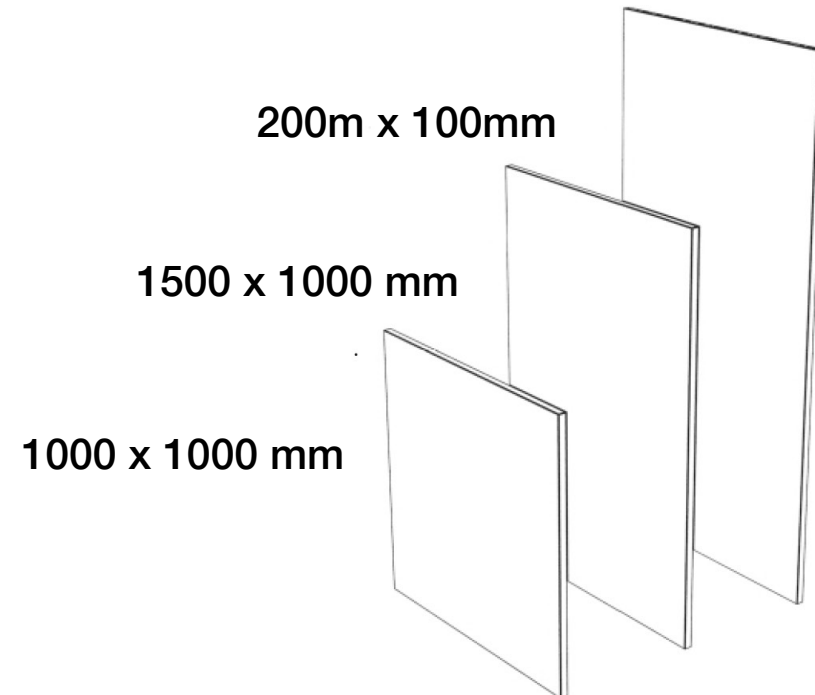

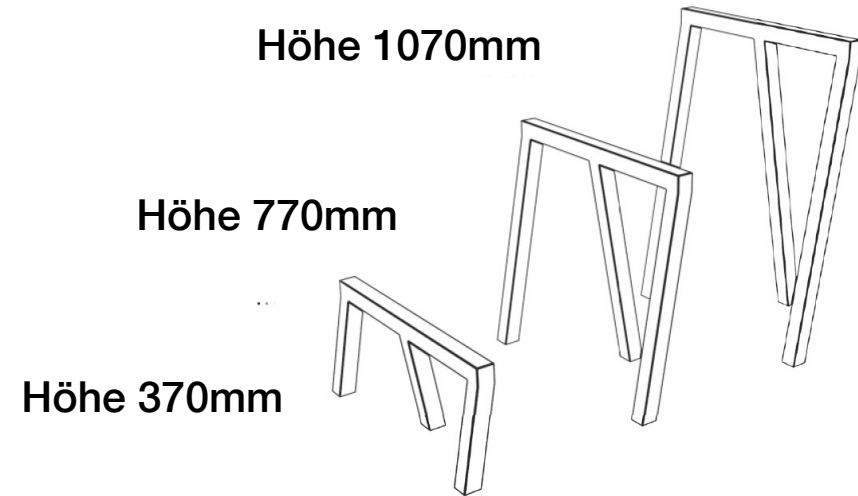

Quantity

Board #2 Aumo - 1500 x 1000 mm

Quantity

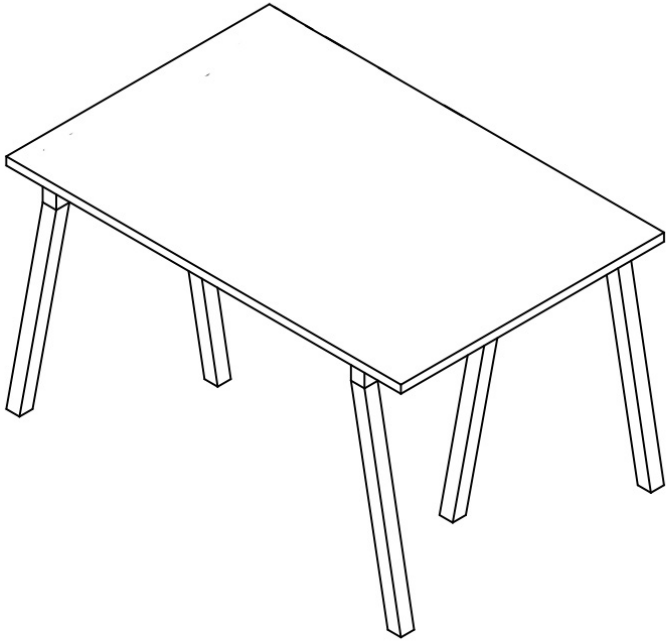

Board #3 Aumo - 2000 x 1000 mm

Quantity

Example AUMO system / Special Request

Example built AUMO

Special Request

We try to avoid special requests as it costs more effort. In case you have a really great idea for a costume piece or you need for that idea a special request, we can talk about. Please describe it here or post sketches, otherwise let it blank.

iMac/iPad

iMac CHF 250.- renting price

How many devices? [None](#).....

iPad CHF 150.- renting price

How many devices? [None](#).....

These sum will be subtracted from your budget.

If you want to show a video, you could alternatively use a projector and project on an AUMO table. The projector is free of charge ;)

iPhones have to be rented by yourself.

There are cheap solutions with [yuno](#) for 3 months.

Location wish

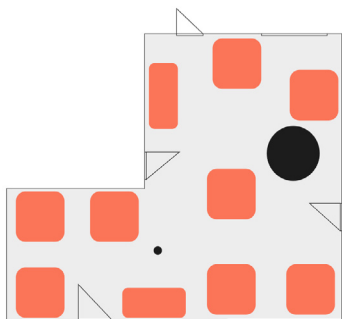

Please mark the spot (on the following pages) where you would like to locate yourself in the exhibition space. Choose either Galerie 1 or 2 or the IAD project room 4.K22-1.

Please describe why this is the best place to showcase your work, or if it doesn't really matter (maybe you just need a spot in front of a wall).

Generally, a space of approximately 2×4 meters will be marked with a Parking space, but only 2×2 metres will be occupied with Objects.

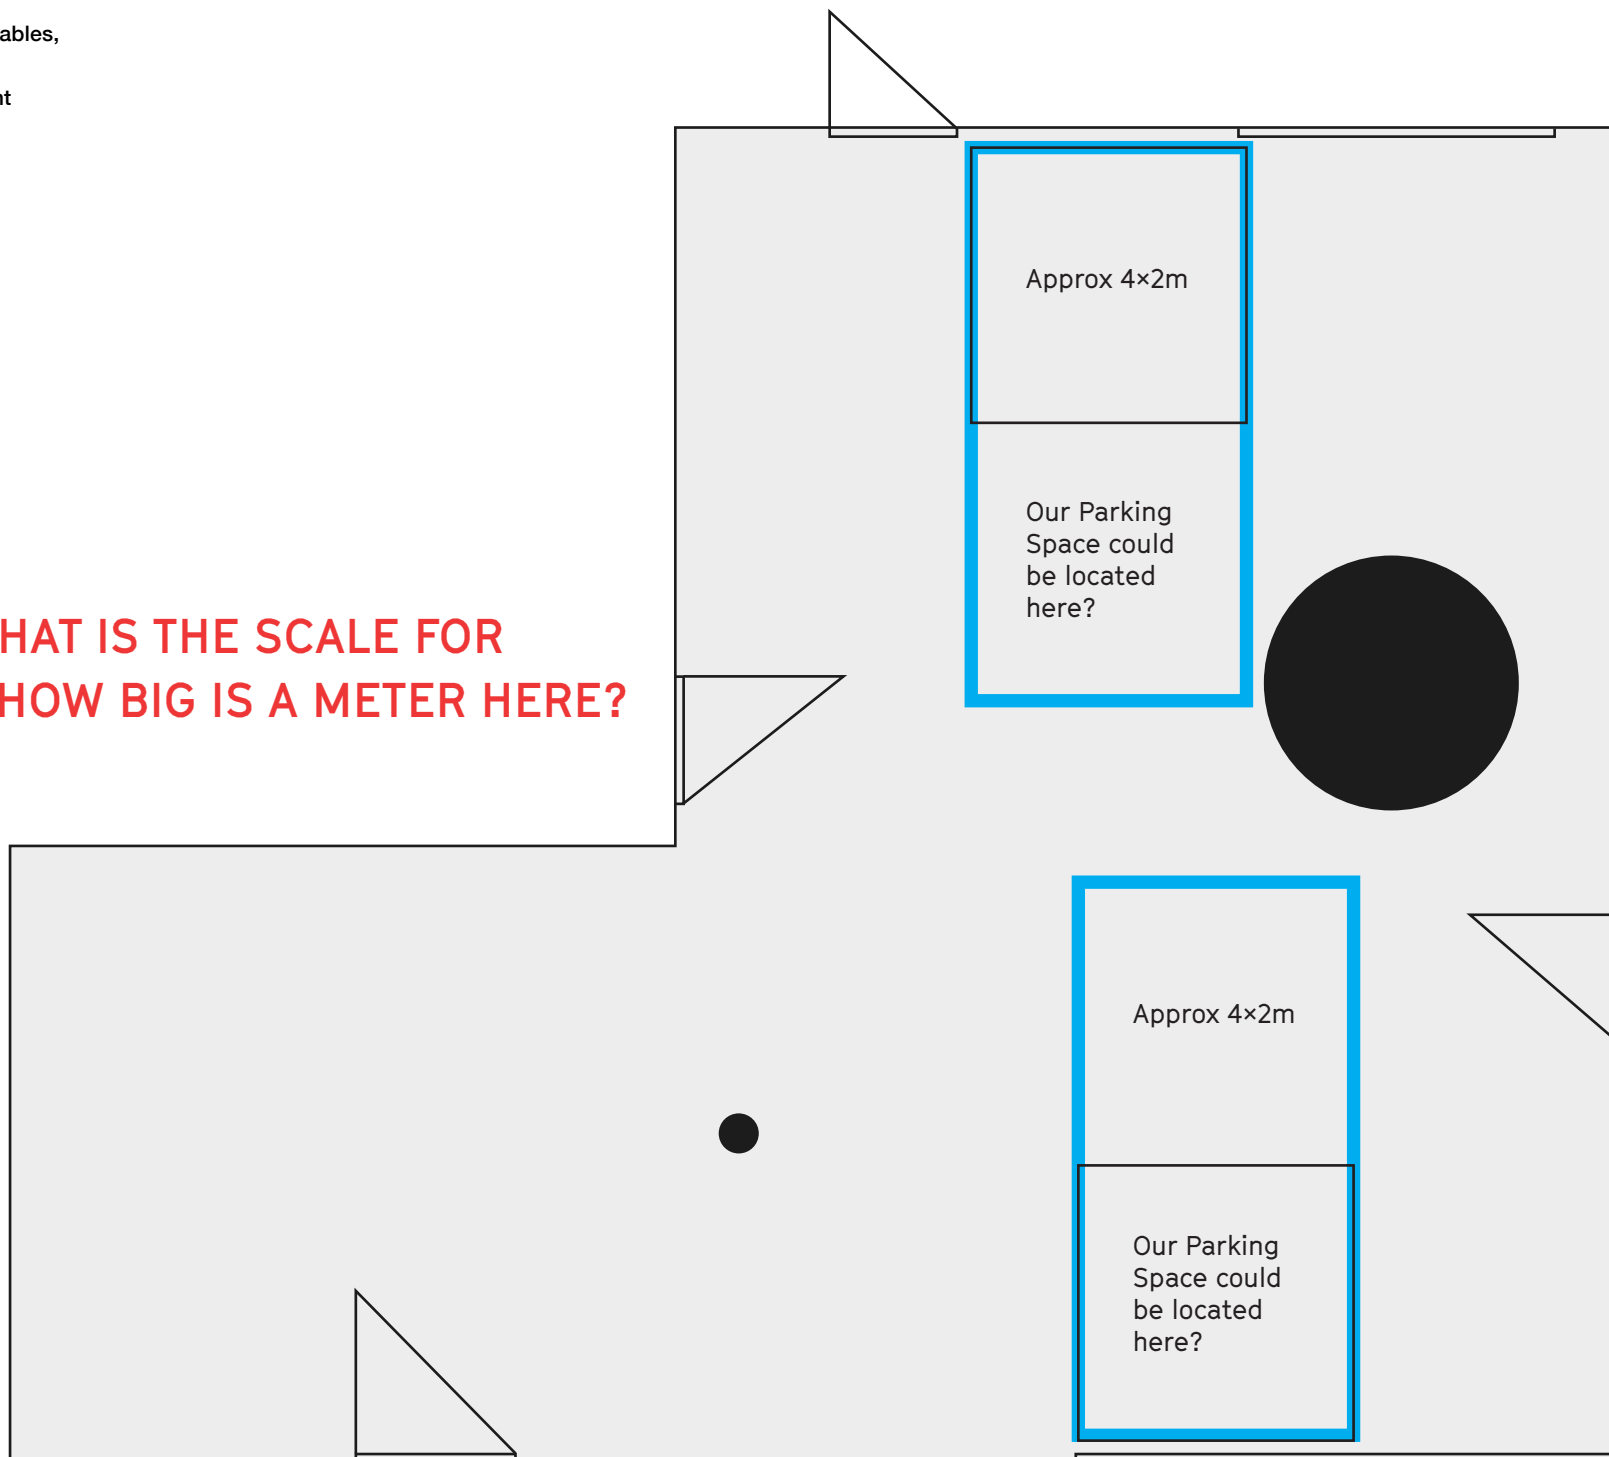

The non-occupied part of the “Parking Space” could reach into a passageway. A wall is not needed, but access from 3 sides would be preferred, therefore a placement in a corner is not desired.

Where would you like to place your tables,
walls, plinths, projectors etc.?
Please illustrate clearly how you want
to built your exhibition.

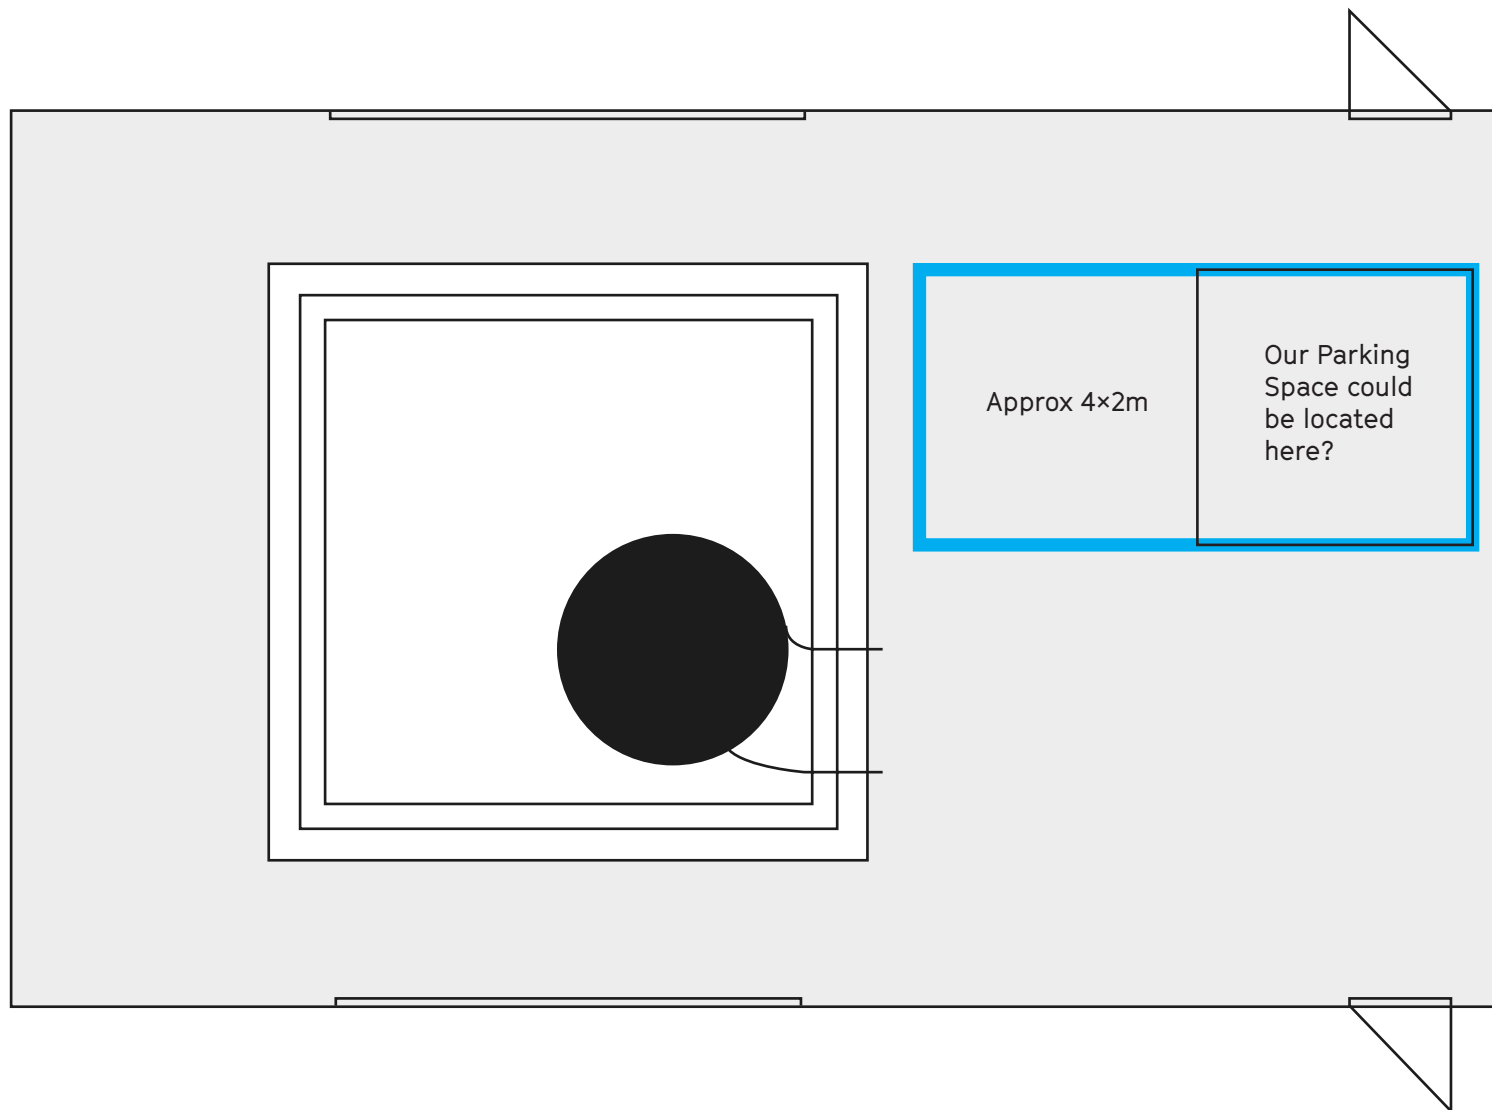

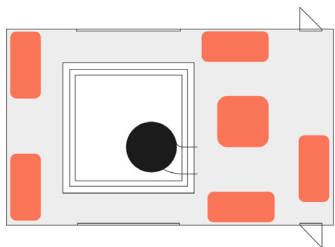

**ONCE AGAIN, WHAT IS THE SCALE FOR
THESE PLANS? HOW BIG IS A METER HERE?**

**Gallery 1
4.K13**
